RE: Resources for Care Based Incentives 2012

The Alliance recently updated its website to include new resources to support your successful participation in the Alliance's Care Based Incentive program (CBI) for 2012. As you may recall, CBI is a program designed to compensate Alliance PCPs for efforts undertaken to improve access, quality and the efficiency of care provided to eligible Alliance members. CBI also rewards members for actively engaging in their care.

These resources include:

- [2012 Practice Profile](#) - A sample is available for review on the website. You will receive a hardcopy Profile on a quarterly basis to let you know how you are performing in CBI.
- [2012 Incentive Summary](#) - A guide to both member and provider incentives, including links to technical specifications for measures.
- [2012 CBI Forms](#) - For both members and providers

A copy of this memo, including a sample of each of the above identified documents is available for your review in the "What's New" section of the provider page of the Alliance website:

<http://www.ccah-alliance.org/providers.html>

If you have any questions regarding any of the resource materials, or would like additional training regarding CBI, please contact the Provider Services Department at 1-800-700-3874 extension 5504 (Monterey and Santa Cruz counties) or extension 5514 (Merced County).
