MEMORANDUM

To: Primary Care Providers

From: Quality Improvement Department

Date: 01/07/14

Subject: Initial Health Assessment/Staying Healthy Assessment Resources and Training Module

This is a notification of resources available to you from the Central California Alliance for Health (the Alliance) for Facility Site Review (FSR) and Medical Record Review (MRR). Additionally, there are new resources available for the Staying Healthy Assessment (SHA) questionnaires, updated by the California Department of Healthcare Services on June 28, 2013.

The Facility Site Review Binder has been updated to include 2013-2014 flu season information, and the suspected child abuse reporting form. The FSR Binder is available at all times at <http://www.ccah-alliance.org/facilityreview.html>.

The Staying Healthy Assessment (SHA) questionnaire is a part of the Initial Health Assessment (IHA), and periodic well visits for Medi-Cal patients. You will find more information, and may order the SHA paper questionnaires in English, Spanish and Hmong by using the SHA order form on the Alliance website, <http://www.ccah-alliance.org/risk.html>.

There a training module, “Initial Health Assessment Overview and Staying Healthy Assessment Training” available on the Alliance website listed above, which reviews the IHA requirements, as well as the updated SHA questionnaires.

If you have any questions about FSR, MRR, IHA or SHA, please call the Alliance Quality Improvement Department at (831) 430-2622.
