Billing for Time Based Anesthesia Services

Effective for date of service 8/1/16, the Alliance requires time based anesthesia services to be billed in one-minute increments. Claims billed for more than 10 hours (600 minutes) require an anesthesia report (with anesthesia start, stop and total times) to be attached to the claim. Please see Alliance Policy 600-1039 in the Claims section of the Alliance Provider Manual found at www.ccah-alliance.org/Providers.html.
