## End of Life Services

End of life (EOL) services for Medi-Cal members must be provided by a Medi-Cal fee-for-service (FFS) attending or consulting physician. As defined by the End of Life Option Act, these services include consultations and the prescription of aid-in-dying drugs. A member may request that an Alliance provider become their attending physician and if he/she is a Medi-Cal FFS provider they may render these services. If the member requests services and the provider is not a Medi-Cal FFS provider, they should document the request in the member's medical record and inform the member they must find a Medi-Cal FFS provider to receive EOL services.

For additional information please see the Medi-Cal Provider Manual.
