Expanded Medi-Cal Capacity Grant Program: New Funding Opportunities

The Alliance's Medi-Cal Capacity Grant Program is an opportunity for health care providers and community organizations to receive grant support for efforts that expand Medi-Cal capacity in Santa Cruz, Monterey and Merced counties in three priority focus areas:

1. Increasing **Provider Capacity**
2. Expanding Access to **Behavioral Health and Substance Use Disorder Services**
3. Developing and Strengthening **High Utilizer Support Resources**

As of this month, the Alliance is pleased to announce the addition of three new grant opportunities available through the Medi-Cal Capacity Grant Program.

Capital Program

Planning and/or implementation grants for non-profits and government entities for the expansion, construction, renovation, and/or acquisition of health care facilities that will serve the growing Medi-Cal population in the Alliance service area. Capital planning and/or implementation grants are also available for projects that expand access to Medi-Cal services through transitional or permanent supportive housing for the Alliance's most medically fragile Medi-Cal members.

Infrastructure Program

Planning and/or implementation grants for non-profits and government entities to implement information technology and equipment systems that expand Medi-Cal capacity in the Alliance service area.

Practice Coaching/Technical Assistance Program

The current Practice Coaching Program, which provides coaching for primary care practices committed to adoption of the Patient Centered Medical Home model of care, has been expanded to include Technical Assistance grants for other types of training or consulting support that directly result in increased access, coordination of care and integration of services.

These new programs are being offered in addition to the ongoing **Provider Recruitment** and **Equipment** grant programs that were launched in July 2015.

Please visit www.ccah-alliance.org/grantprogram.html for additional information on the Medi-Cal Capacity Grant Program and to learn more about the eligibility and criteria for each funding opportunity.
