

## Care Based Incentives Program: 2017 Changes

The Alliance is excited to present information on the 2017 Care Based Incentives (CBI) program!

### **New Programmatic Measure (Annual Payment):**

*Diabetic HbA1c Good Control <8.0%:* The Alliance will pay providers for diabetic members whose most recent HbA1c test is <8.0%.

### **New Fee-for-Service Measures (Quarterly Payment):**

*Childhood Immunizations (Combo 3):* \$100 per member who has received seven required vaccinations by their second birthday.

*Timely Prenatal Care:* \$25 per member for whom the provider has provided the member's first prenatal visit by end of their thirteenth week of pregnancy or within 42 days of enrollment with the Alliance.

*Annual Monitoring for Patients on Persistent Medications:* \$25 per member, 18 years and older, who has received  $\geq 180$  days of ACE/ARB or diuretics treatment, and has received serum potassium and serum creatinine tests.

*Screening, Brief Intervention, and Referral to Treatment (SBIRT):* \$10 per initial screening and \$10 per subsequent intervention (maximum of 4 per member per year).

*Advance Care Planning:* \$25 per member per year for advance care planning sessions.

### **Discontinued Measures:**

#### *Programmatic - Quality of Care Measures*

- \* Spirometry Test in the Assessment and Diagnosis of COPD
- \* Appropriate Testing for Children with Pharyngitis
- \* Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis
- \* Medical Attention for Nephropathy

#### *Fee-for-Service Measures*

- \* Medication Management Agreements
- \* Physician Orders for Life Sustaining Treatment (POLST)

### **Additional Measure Changes:**

There have been additional changes made to existing CBI Measures for 2017. Please refer to the 2017 Care Based Incentives page on the Alliance Provider Website ([www.ccah-alliance.org/cbi-2017.html](http://www.ccah-alliance.org/cbi-2017.html)) for more information.
