Rate Updates for Codes 88112 and 88333

Effective December 1, 2016, the rates for CPT codes 88112 and 88333 have been updated to align with Medi-Cal guidelines. The codes were previously paid by report. Medicare and Medi-Cal now list rates for these codes, therefore providers will no longer be required to submit documentation for payment. Providers may also receive payment for claims pended or denied for no documentation for dates of service beginning with December 1, 2016.
