Provider News

Cervical Cancer Screening Data Submission Tool Coming Soon!

Providers will be able to upload cervical cancer screening data through the Data Submission Tool. This new function was created to support providers in submitting data for qualification of the Care Based Incentive (CBI) Cervical Cancer Screening measure.

Once this tool is live, please submit your 2017 cervical cancer screening data by Wednesday, February 28th; this will ensure your data is counted for the annual CBI payment. Your 2018 cervical cancer screening data can be submitted starting on Thursday, March 1st.

Qualifications for the Cervical Cancer Screening CBI measure:

- * Women age 21–64 who had cervical cytology (Pap smear) performed every 3 years.
- * Women age 30–64 who had cervical cytology (Pap smear) and human papillomavirus (HPV) co-testing performed every 5 years.

The Cervical Cancer Screening is a programmatic measure and is paid annually.
