## Memorandum

Date: May 29, 2007

To: Alliance Providers

From: Provider Services Department

Re: CPT-4 Codes 76376 and 76377 Non-covered for Medi-cal

---

Effective for dates of service on or after April 1, 2007, CPT-4 codes 76376 and 76377 are no longer Medi-Cal benefits. The California Department of Health Services' (CDHS) Benefits Branch has determined these two codes to be an integral part of the primary imaging procedure. Therefore, these codes are not separately reimbursable. CPT-4 Code Description 76376 3D rendering with interpretation and reporting of computed tomography, magnetic resonance imaging, ultrasound, or other tomographic modality; not requiring image post-processing on an independent workstation 76377 requiring image post-processing on an independent workstation. For all other lines of business, the Alliance is still allowing these codes per CPT guidelines, with a TAR.

Please call your Provider Services Representative if you have any questions.
