RE: **CHANGE IN ALLIANCE OUTPATIENT LAB SERVICE PROVIDER
EFFECTIVE 8/1/08**

This memo is to inform you that Stanford Clinical Laboratories (SCL) has been purchased by Laboratory Corporation of America (LabCorp). After review of LabCorp's ability to meet SCL's contract obligations, the Alliance assigned its outpatient laboratory services agreement to LabCorp, effective August 1, 2008.

The Alliance is confident that LabCorp will provide a high level of service with minimal disruption to members and providers during this transition. LabCorp will maintain Stanford's existing network of patient service centers throughout the region and will accept Stanford's requisition forms during the transition period.

Many of the same lab professionals, sales team and client service representatives you have come to know at Stanford Labs will continue to support you as part of the LabCorp team. Within the next two weeks, your local representative will be contacting you to arrange specimen pick up services, provide you with LabCorp cytology requisitions, and answer any questions you may have. During this time, you may continue to contact the Stanford Clinical Laboratory Customer Service number at 1-877-717-3733.

Beginning Friday August 1, 2008 please direct all of your Alliance members' clinical and cytology specimens to LabCorp. For your customer service needs, you may contact the LabCorp Customer Service Center at 1-866-273-7492 and can access a list of Patient Service Centers at www.LabCorp.com.

If you have questions or comments, please feel free to contact your Alliance provider services representative at 831-430-5500.
